

Obstetrical Care

Dear Patient, Welcome to our practice! We are delighted to care for you during your pregnancy and birth. We would like to take a moment to explain our coverage arrangement for your obstetrical care. While we all make an effort to attend the deliveries of our own patients, we do share night, weekend and vacation coverage. There may be times when another physician in the group will attend your delivery.

Our group consists of both male and female providers, as listed below. All are very experienced, qualified, and certified to provide you obstetrical care. We provide services at Memorial Hospital, part of UMass Memorial Healthcare, located on Belmont St. in Worcester. Resident physicians often assist us, and are a tremendous help in looking after our patients. We look forward to caring for you during your pregnancy.

*****Please note: We do not co-manage pregnancies with mid-wives.**

If you have a question about this, please consult your doctor.***

By signing below, I acknowledge that any of the individuals listed below may care for me during my experience at the hospital.
